AN ACT To direct the Director of the Office of Management and Budget to standardize the use of core-based statistical area designations across Federal programs, to allow between 120 and 180 days for public comment on any proposed change to such designations, and to report on the scientific basis and estimated impact to Federal programs for any proposed change to such designations, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. [31 U.S.C. 6101 note] SHORT TITLE.

This Act may be cited as the “Metropolitan Areas Protection and Standardization Act of 2021” or the “MAPS Act of 2021”.

SEC. 2. [31 U.S.C. 6102 note] FINDINGS.

Congress finds the following:

(1) Federal programs use core-based statistical area delineations to determine the delivery of Federal services, benefits, and funding to people in the United States, such as in criteria for eligibility or distribution.

(2) Core-based statistical area delineations provide a nationally consistent set of standards for collecting, tabulating, and publishing Federal statistics for geographic areas, and they are not intended for any public or private sector non-statistical uses such as program administration or service delivery.

(3) Updates to core-based statistical area delineations may cause widespread disruption to the delivery of Federal services, benefits, and funding to people in the United States based on the reliance of Federal programs on these delineations.

(4) There does not exist any comprehensive list of Federal programs that rely on core-based statistical area delineations. Such a list is valuable for the study of how Federal services, benefits, and funding are distributed to people in the United States.

(5) Increased transparency on the impacts of any update to core-based statistical area delineations may be overly burdensome due to the anticipated variety of Federal programs that rely on these delineations. Any requirement for complete disclosure of these impacts prior to implementation of new delineations may unintentionally cause the existing delineations to ossify.

(6) In order to prevent any disruption to service delivery of Federal programs based on updates to core-based statistical area delineations, and ensure the independence of Federal statistical policymaking, Congress must sever the link between future updates to core-based statistical area delineations and any automatic impact on Federal programs that rely on these delineations.

This purpose of this Act is to ensure—
